

The University of Fiji

Celebrating 15 Years

Short Courses

Course Title	Overview	Venue	Fees	Course Dates
Department of Science				
Integrated Pest Management	The incidence and number of pest outbreaks in the agroecosystem have increased over the decade, leading to substantial economic loss and threatened food security. Thus Integrated Pest Management provides an ecological-based solution to reducing pest population and the damage caused. IPM is a technique that combines various strategies to control pests with the least possible impact to the environment, natural resources and health. This course will cover types of pests, reasons for pest outbreaks, sampling methods and will also outline the basic principles of pest management.	Saweni Campus, Lautoka	\$190.00	9th – 10th December 2020 9.00am to 3.00pm
Language, Literature and Communications Department				
English for Communicative Purposes	This course is designed for anyone who wishes to sharpen their communication skills in the English language. This is an engaging intensive soft skill development course where you will sharpen your understanding while building your communication abilities. Participants will consider the reason they communicate the way they do, and make a commitment to enhance their approaches of written or spoken communication. This tailor-made course is designed to improve communication skills and create exposure to everyday English.	Saweni Campus, Lautoka	\$200.00	21st– 22nd January, 2021 9.00am to 3.00pm
